

Ulf Landgren

Experience

Quality & IT Coordinator

Municipality of Lidköping

August 2008 – Present

Responsible for quality assurance regarding highschool and adult education. Includes development and maintenance of documentation.

Development regarding the Digital Agenda in Education. I was part of the project team in the implementation of "one computer per student" in Lidköping 2009-2011. Since the implementation I have been involved in refining our platform and developing an exchange program for principals and teachers.

Lidköping is using Hypergene, a business intelligence system. My responsibility includes maintenance and development, primarily of the modules connected to school quality.

My work also includes doing presentations for the educational board.

During the years I have organized a couple of conferences, in ranges between 50 and 300 guests.
